DIFFICULT CONVERSATIONS IN HEALTH CARE
TEACHING AND PRACTICE IN AN INTERPROFESSIONAL WORLD

1-day interprofessional faculty development course

June 20, 2020
9 am - 5 pm EDT

The course provides a rich opportunity for participants to observe and experience a variety of teaching methods and strategies for difficult conversations in health care including:

✓ Realistic enactments and simulation
✓ Collaborative learning, reflection and feedback
✓ Use of narratives for learning and reflection
✓ Interprofessional collaboration and teamwork
✓ Values and everyday ethics
✓ Use of videotapes to facilitate discussion
✓ Small group team-based learning

RECOMMENDED FOR:
Physicians in all specialties
Residency Program Directors
Department Chairs, Medical School Deans
Nurse Practitioners
Training Program Directors
Medical / Healthcare Educators and Leaders
Individuals and teams involved in interprofessional education and/or practice
Psychologists | Social Workers
